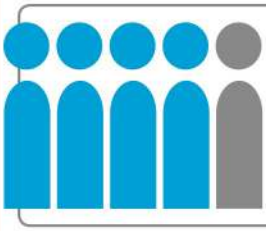
Why is it important to safely dispose of unused prescription drugs?

• Prevent Prescription Drug Abuse • Cleaner Environment

Together, we can remove over **1.3 million** prescription pills from our community! (Summit County Community Partnership)

15.6% of Summit County high school students have reported using a prescription drug without a doctor's prescription (Summit County Opiate Task Force)

In Ohio, there has been a **366%** increase in drug overdose deaths from 2000 to 2012 (Summit County Opiate Task Force)



4 out of **5** heroin users first began with recreational use of prescription pain relievers (Substance Abuse and Mental Health Services Administration)

Less than half of prescription drugs in sewage are removed by water treatment facilities.
